Belize:

Belize is located in Central America, bordering Guatemala to the west, Mexico to the north, and the Caribbean Sea to the east. Belize is a small country with a population of over only 350,000+ people. It has a multi cultural society with a fascinating history that resulted in a population of African descendants called “Creoles” who are descendants of the enslaved, Garifuna who are African Arawak people descendant from run away slaves, thriving Mayan communities, Amish who came to Belize to live without harassment, an increasing migrant population from Guatemala and El Salvador, Chinese Belizean immigrants, and Europeans mostly descendants of the former English crown who colonized Belize in the 1700s.

Belize is also popular amongst adventure travelers because of the barrier reef off shore, which is the 2nd largest in the world. It is also known for its beautiful cayes, protected rain forests, the Mayan Mountain range, waterfalls, caves and more.
